PROFILE SUMMARY

An aspiring Civil Engineer with a passion for structural design, 3D modeling, cost analysis and quality engineering. A detail-oriented multitasker who takes on challenges and applies technical knowledge to deliver practical, innovative solutions. Highly adaptable and team-oriented, with a strong commitment to personal growth.

EDUCATION

B.E Civil Engineering 2022 - 2026
Rajalakshmi Engineering College
9.09 (as per sixth semester)

St. Joseph's Matriculation Higher Secondary School
• **HSC - Class XII** 2021 - 2022
90 %
• **SSLC - Class X** 2019 - 2020
91.80 %

PROJECTS

Design and Analysis of a Residential cum Commercial Multi-Storey Building

- Designed and analyzed a multi-storey mixed-use structure using AutoCAD and STAAD Pro as per IS codes, including cost estimation and manual design of key structural elements.

Quick Setting Mortar for 3D Printing Using Sustainable Materials

- Developed a quick-setting mortar mix for 3D concrete printing using industrial by-products to promote sustainability and performance in automated construction technologies.

INTERNSHIP EXPERIENCE

JB Consultants (Designer Intern) October 2025

- Worked on preparing detailed structural drawings using AutoCAD and performed quantity and cost analysis for real-time projects.

STS Builders June 2025

- Gained knowledge in building design and field work, and visited sites to understand practical construction activities.

Kirushiyaa Construction Jan 2025

- Assisted in structural works and daily supervision for a G+1 residential project, supporting end-to-end construction activities.

Bharathi Construction Jan 2024

- Exposed to residential projects at various construction stages; learned core site practices, safety, and material handling.

TECHNICAL SKILLS

- AutoCAD
- MS Excel
- Revit
- Staad Pro
- SketchUp
- Quantity Surveying & Estimation

SOFT SKILLS

Resilience · Teamwork · Adaptability · Time Management · Problem-Solving

ACHIEVEMENTS AND CERTIFICATES

- Top 3 rank holder for 5 semesters, including first rank in two consecutive semesters.
- Won first prize at Russian Centre of Science & Culture project Contest.
- Recognized as Top 1% performer by NPTEL
- Certified as Elite in 4 NPTEL courses including: 1. Sustainable Architecture 2. Remote sensing and GIS for rural development.
- Represented college in road safety hackathon (NHAI & HAOI), PSG Tech cube contest and RDC cube contest.
